Board OKs Investment Of County Idle Funds

Treasurer Musso Says
About \$1-Million Now
Available For Program

A plan for investing idle county funds in short-term government bonds or other qualified securities was approved yesterday by the Madison county board of supervisors.

The board action came upon recommendation of the finance committee and County Treasurer George Musso. The treasurer reported approximately \$1-million is available for investment.

Appearing before the board on crutches as a result of serious injuries received in an auto accident last year, Musso said he has studied the investment plan thoroughly. He said he has discussed the matter with Leslie Prehn, finance committee chairman, Board Chairman Guy J. Kraynak and County Auditor John L. Kraynak.

Musso emphasized that interest drawn on such an investment is returned to the fund from which the investment is made. He said county officials and employees whose offices operate on such funds have voiced their support and asked for such investments.

Under terms of the resolution approved by the board, the auditor will make a monthly report to the finance committee on its estimate of funds available for investment for the succeeding 90-day period.

The finance committee chairman will then recommend monthly to the board the amount of funds to be invested and the type of investment suitable. The board must then approve such investments before they can be made by the treasurer.

Prefacing the proposed resolution was a finance committee report on its study of the matter. The committee had studied such an investment program for several months, the report stated, meeting with the state's attorney and the county treasurer.

"We have been advised by the state's attorney that the county may legally invest funds not required for expenditures within 90 days," the report said, "provided that the investment is made in securities issued by the U.S. government, or in securities legally issuable by savings and loan associations and insured by the Federal Savings and Loan Insurance Corporation."

Auditor To Keep Records
The committee said Kraynak had advised them his office will be able to make a monthly analysis of funds available for investment within 90-day period, and that he will keep all necessary books and records pertaining to such an investment program.

In discussing the amount of funds available for investment, the committee reported, "you committee brought out the fact that the county has approximately \$1-million in idle funds."

Edwin Rich Survives Alaskan Plane Crash

Edwin R. Rich, 53, son of Mr. and Mrs. E. S. Rich of 2938 Madison avenue, was listed in "fair" condition in Fairbanks, Alaska, following an airplane crash about 4:25 a.m. St. Louis time Tuesday. He is the brother of Ernest (Pat) Rich, 3330 Washburn avenue, local oil distributor.

The injured man was the sole survivor of the crash in which five others were killed. He was flown to St. Joseph Hospital at Fairbanks from the crash scene 382 miles to the northeast.

A spokesman of Federal Electric Corp., Rich's employer, telephoned the family Tuesday and gave a preliminary report on the victim's condition. On arrival at Fairbanks he was conscious and able to speak to attendants, though in considerable pain. He was not disfigured, the spokesman said.

At Wednesday noon a telephone report was phoned to Ernest Rich confirming that the victim suffered frostbite to the left foot, broken ribs and broken collarbone. There is no indication of internal injuries, and chances of complete recovery are good, the spokesman said.

His condition Wednesday was described as "very good."

The vacation was delayed a month, however, when he was promoted from assistant superintendent to the position of superintendent (Dew Line) radar network that stretches across the polar region.

Investigation Starts
Cause of the crash is being investigated. The weather reportedly was 22 degrees below zero at the time.

The scene of the crash was at a major radar installation near Barter Island in the Arctic ocean.

Ernest Rich said it was his brother's job to check 10 Dew Line points once a month. The only mistake was between the points is by air.

"Most Hazardous Flying"
"I told mother it is the most hazardous flying in the world because of terrain and weather," Rich said.

"But he said the company was having the best pilot available." The aircraft was reported to be a Wien Alaska Airplane.

Federal Electric Corp. builds and maintains Dew Line installations.

City Still 'Mum' On Sewage Plant Design-Engineer

No mention of the proposed engineering contract for construction of a sewage treatment plant in Granite City was made during a dinner meeting of council committee chairmen Monday night.

Other aldermen, who were not present for the chairman meeting at the Colonial Supper Club, Rosewood Heights, expressed an opinion that the engineering contract should be awarded to the local firm.

No one was aboard as the construction job had been shut down because of cold weather. A spokesman for Massman Construction Co. said efforts to retrieve the barge-mounted crane will be delayed because of the weather.

McBride Urges All-Out Action By Citizens

Good Government Only If Individuals Select Qualified Candidates

(Related Story on Page 3)
A formula for good city government—stressing active citizen participation—was outlined Tuesday evening for over 160 persons attending the second annual meeting of the Associated Retailers & Civic Association, Inc.

The speaker, John McBride, vice-president and manager of Union Starch & Refining Co., who criticized the Granite City council leadership in a year-end business review, said at the start of his talk—"This time I'm here to criticize you."

McBride, using a chart to illustrate his points, said the element of good city government are—"Good Citizens, Good Politicians and Good Officials."

"I hope, the river doesn't rise suddenly and sweep it over the dam," he said.

"Other pollsters are to be brought to the bridge site in the near future to speed up the superstructure work."

"I want to let every slob and his brother run you'll get a slob in office. You have to get qualified persons to run for office."

"In your role as a good citizen, vote and vote for a candidate because he is qualified and not because he bought a drink for you."

"Vote And Give Support
"Don't only vote, but get out and support the candidate you think is best for the job."

"After he's elected, don't feel you've done enough. Continue to give him your support through his trials and tribulations."

"This is good citizenship. If you criticize, give him constructive criticism. Don't just stand on the street corner and criticize."

"Encourage these men. An elected official sometimes has one of the loneliest jobs. He's put in office and then forgotten."

McBride urged active participation in government—serving on juries, attending sessions of government bodies, serving on boards and commissions.

"How many of you have attended a community board meeting?" he asked.

"Have you ever made a request or written to your Congressman? I don't mean a form letter. I mean a letter of your own."

"Write or go and see your Congressman."

Nameoki Board Buys Insurance

Nameoki town board members approved payment of a \$977 insurance premium to an Edwardsville agency for its high-way trucks and equipment and approved the purchase of a new \$3919 dump truck last night.

During the brief session, Supervisor Harry Briggs said he is going to Springfield today to meet with an Aurora attorney on the township's contemplated lawsuit to compel the East Side Levee & Sanitary District to aid in the financing of a sanitary sewer system in the township.

Briggs is to obtain transcripts of a similar suit in Aurora, and he said, "This should pave the way for filing the suit in the circuit court here and be a step toward getting legislation to aid the township in its project."

The vehicle insurance was obtained from the Oscar Schmidt Agency at Edwardsville, while the dump truck, on which the township received a \$861 allowance for an old truck, was purchased from Brewer Motor Co. The purchase had been authorized by the county highway superintendent. The county is to provide a snow plow for the truck.

Red Devils Get Scare, But Survive Late Rally By Livingston, 66-63

Venice gained a somewhat shaky hold on second place in the Madison-Clinton-Mason counties basketball conference Tuesday night by edging visiting Livingston, 66-63.

The Red Devils, now runners-up in the MCM and 84th overall, blew every bit of a 15-point lead established in the third quarter and were tied twice early in the final period by the Eagles, but finally got back ahead to stay on Ken McMullen's basket with 2:40 left in the game.

"We pressed in the first half, and it worked. Maybe we should have kept it on later," said Coach Bill Ohendorf of Venice. The Devils experimented with three different zone defenses and a switching man-to-man in the last two periods.

None of them seemed to be effective, and Livingston turned an 11-point halftime deficit into a new ballgame, 55-55. Another tie developed at 57-57 before McMullen, who totaled 14 points, hit the two-pointer which put VHS ahead to stay.

Venice hit a warm 57% from the floor and got 20 points from Jerry Cicio, while 6-1 sophomore Ron Rami busted 20 for the Eagles, who fell to 1-3 in conference play.

Bunker Hill Next

The Red Devils are virtually tied with Bunker Hill for second spot in the conference, a situation which will be resolved when the two schools tangle tomorrow night in Venice. The Minutemen are 4-2 in MCM play, and Venice 3-1.

Bunker Hill got past Breese Tuesday night, 76-69, while Wenden was trouncing Aviston, 85-39. League leader Weslin (5-0) was idle.

Fourteen Venice players got into the preliminary junior varsity game Tuesday, which went to Livingston reserves by a 32-47 score. Mike Edwards with 12 points and Terry Cooper with 11 were leading scorers for the losers.

The varsity scorers: Venice—Jerry Cicio 20, Ken McMullen 14, Paul Stitt 8, Pete Fields 8, Jim Hannon 6, John Robertson 5.

GCHS Top Seniors Prepare For Coming Commencement

By Christine Paschoff

Top seniors at Granite City high school—members of what perhaps is the last GCHS class of its kind—are preparing for their graduation which is less than two weeks away.

The January graduation has become a tradition at GCHS. The first midwinter class was graduated in 1918, when nine students received their high school diplomas.

Initiation of the double class system gave rise to the terms "top" or "high" class and "low" class. Use of the names was necessary to distinguish between classes scheduled to be graduated in January and those which would finish in June.

The January 1963 class is said to be the last January graduation class at Granite City high school. Principal Lawrence McCauley said this decision is not yet final, however.

Whether or not they are the last top seniors however, members of the present class are well into their schedule of events leading to graduation. Clinax will be the commencement program itself on Jan. 28.

Activities underway Events preceding graduation began this week at GCHS. The traditional "Tacky Day" was observed Monday, with a dozen top seniors receiving costume prizes. The theme this year was "Sons."

First place winner in the most original category was Gene Sine, who was dressed as Mr. De-Beauvoir. Second place was awarded to John Lerch, who was dressed as Dr. Ben Casey. Dr. Zorba and a patient. Second prize, for their presentation of Ahab the Arab, went to Maria Culpen, Mary Wells, Pat Pfaff, Chris Moore and Sam Shoemaker.

Single Awards Single character prizes were awarded to Tom Mitchell as Dracula, first, and Carol Bradish, second. Carol dressed to

depict the song, "Take Me Out to the Ball Game."

A recognition assembly program for top senior students was held Tuesday morning. Individual students were honored for sports participation, academic achievement and other activities. To be so honored, a student is expected to be not only outstanding in a particular field but also an outstanding school citizen in general.

Following the assembly, the class members went outside to watch their class banner as it was raised on the staff with the American flag.

A tea for the top senior girls will be held Tuesday afternoon at the home of the home economics department. Cookies and punch are to be served in the school cafeteria.

Chaplain To Speak Baccalaureate services are scheduled for 2 p.m. Sunday, Jan. 27, with Chaplain Billie Cook of the Granite City Army Depot to deliver the sermon. Invocation, scripture reading and benediction will be by Rev. Frank Pierce.

The commencement address to members of the January class is to be delivered by George E. Brock, principal of the West senior high school at Aurora. Rev. William Cravens will give the invocation and benediction. Leading the class this year have been Richard Copeland, president; Sandra Johnson, vice president; Reddy Mathews, secretary, and Carol Bradish, treasurer.

TRIDELS BAKE SALE A bake sale will be conducted Saturday from 8:30 a.m. to 1:30 p.m. by the Tri-Dels Tri-Hi-Hi club at the A & P supermarket on Madison avenue. Proceeds will be used to sponsor club activities.

AT ILLINOIS Nancy A. Turpenoff, 2537 State street, is enrolled at the University of Illinois as a mathematics major. Nancy is a 1963 GCHS graduate.

Venice Students Name Upperclass Personalities

By Michael Lopez

Members of the Venice high school junior and senior classes met Tuesday morning to elect upperclass personalities for the yearbook—best all-round, best citizen, most likely to succeed, most athletic, most popular and best looking.

The selections are to be made from members of the two classes, with one boy and one girl to be elected in each classification. Each student casting a ballot was asked to list his first three choices.

Compilation of the votes will be made on the basis of 10 points for a first choice vote, five points for a second choice vote and one point for a third choice vote. Names will go to the boy and girl receiving the greatest number of points in each specific category.

The yearbook editors have arranged for various group and class pictures to be taken next Thursday morning, including the newly-elected upperclass personalities.

Among those scheduled for pictures are the driver education class, the bookkeeping class and pictures for sports and activities pages. Pictures will be taken of two new faculty members, Miss Violet Podnar and Mrs. Norma Holman, and their classes.

Pictures also are scheduled for the school custodians, the clarinet and saxophone players of the Red Cross Council, along with some candid photos.

THE VHS SENIOR CLASS will hold a rummage sale Saturday at the Venice city hall. The sale is to begin at 10 a.m. and close when all articles are sold.

For March Of Dimes David Keltner and Pam Goodin have been named youth chairmen for the 1963 New March of Dimes campaign in the Quad Cities, and are making plans for a variety of youth activities.

The two Granite City high school students will join adult leaders to help reach persons throughout the community during the January New March of Dimes fund drive.

"Without a doubt," Dave explained, "but I want those less fortunate than I—the crippled and disabled children—to have a chance to make the best of their lives. That's why I accepted the co-chairmanship of the youth campaign."

Added Pam, "We're old enough to know what the Salk and Sabin vaccines have done against polio. There are a lot of healthy children and adults walking around today who might be crippled or dead if March of Dimes-supported research had not come up with those vaccines."

"But millions of dollars are still needed each year to help those who were paralyzed by polio and to finance continued research to conquer other crippling diseases."

Both Active Students Both Dave and Pam added their work for the March of Dimes to already busy schedules. Dave, a low senior, is an active member of Masque & Gavel. He lives at 2028 Amos avenue.

Pam is a GCHS junior, and among other activities serves as a member of the student council. She is a junior varsity cheerleader and is active in a number of student organizations. Her home is at 3700 Franklin avenue.

Discussing the New March of Dimes campaign, the youth chairmen explained that proceeds of the drive will be used

Teen Committee For Madison Fund Drive Mrs. Charles Wood, 1738 Second street, Madison chairman of the March of Dimes fund campaign, announced this week that Bill Keltner will serve as teenage chairman for the drive.

Other members of the teenage committee are Phil Fraundorf, Donna Smith and Ann Hodges. All four are students at Madison high school. Preliminary plans are being made for a basketball game and other benefit events.

BACTERIOLOGY STUDENTS Jim Frey and Judy Segelmeyer examine throat cultures in a Granite City high school laboratory. The two are students of Grover Norwood, who conducts the throat culture program to check for the presence of beta strep organism which is involved in throat infections resulting in rheumatic fever.

Throat Cultures Are Unique Study In Bacteriology

Senior advanced biology students at Granite City high school under the instruction of Grover Norwood, participate in a unique program which is supervised by medical authorities as a significant deterrent to heart disease in children.

After studying bacteriology for several months and learning aseptic techniques, the students observe and assist in the preparation and reading of agar throat culture plates to determine if strep infection is present.

"Not only has this program proved to be a valuable educational tool," Norwood says, "but it is an important service to the community."

He explains the program: A Naneok, McKinley, Prather, Coolidge or Granite City high school student who has a sore throat reports to the school nurse. She makes a throat culture on a portion of an agar plate.

Plates Prepared, Read Plates are then taken to the high school, where they are prepared by Norwood. They are streaked and incubated overnight, then read the following morning for the presence of Lanesfield Group A, beta-hemolytic streptococci—or the "beta

strep" organism which is involved in throat infections resulting in rheumatic fever. If the beta strep organism is found, the nurse who inoculated the plate is informed. The student with the sore throat is taken home and the parents are given various forms to be filled out by the family physician.

Hospital Participates The committee supplies necessary supplies, including plates and an incubator. Plates from McKinley school, because of its nearness, are taken to St. Elizabeth Hospital for treatment and reading. Those from all other schools are handled by Norwood.

The program apparently has proved popular with parents. Requests have been received from PTA groups and others that it be extended to other schools in the Granite City system.

"Rheumatic fever, a preventable disease, is one of the principal causes of heart disease in children," Norwood explains. By taking the throat culture and maintaining the bacteriology student, by observing the presence of the beta strep organism, the possibility of rheumatic fever and consequent heart disease are eliminated. He says a practical application of the knowledge they have gained

ST. ELIZABETH CUBS

HOLD JANUARY MEETING

Cub Scouts of Pack 13 held their first meeting of the new year at the St. Elizabeth school cafeteria Tuesday evening. They are sponsored by the Holy Name Society of St. Elizabeth Church.

Mrs. Lorraine Mischell's group, Den Five, gave the opening ceremony, followed by all the scouts and parents giving the pledge of allegiance.

Robert Turk, cubmaster, was in charge of the meeting and gave the following announcements: The cleanup committee for the meeting consisted of Den Two, of which Mrs. Helen Turk is den mother. Boy Scout Week will be observed Feb. 13, with the den mothers placing a scouting display in the window of the Ben Franklin store in Bellemore. The blue and gold dinner will be held on Feb. 17 at the school cafeteria.

Turk also suggested that the meeting night for the pack be changed from Tuesday evening to a Friday evening, mainly so the boys would not have school the next day following a late meeting.

Boy Wakefield, a Weholo Scout, conducted a question-and-answer session with the boys on the scout oath, promise, laws, sign and salute. Following this, he had the boys explain the scout badges and uniforms. The boys were asked to demonstrate different knots they had learned and some of the main points of first-aid.

Granite City PRESS-RECORD

Page 16 Thurs., Jan. 17, 1963

Turk gave special recognition to Harry Miller for the manner in which he conducted himself when his clothes caught fire in November. The boy was alone when the incident occurred and, by putting out the flames, he may well have saved his own life.

The closing ceremony was given by Mrs. Sharon Lotus, unit, Den Seven, which sang, "If You are Happy." Immediately following the regular meeting, Don Watson of the safety department of Granite City Steel Co. gave a demonstration with a dummy, of mouth-to-mouth resuscitation.

Following the demonstration, a uniform inspection was held by the cubmaster. Refreshments were served by the committee. The next meeting will be the blue and gold banquet.

Planning Begins For 1963-64 GC School Budget

The 1963-64 Granite City school district budget will not become final until the pre-Labor Day week, but preparation of the massive spending and income chart is beginning in earnest this month, Supt. Harold M. Kaiser reports.

Principal activity at the present centers on advance planning by school principals. They are compiling information on:

1. Anticipated September 1963 enrollment, by grades.
2. Classroom rentals which may be needed to take care of the enrollment.
3. Staff changes due to resignations, retirements, transfer requests, possible staff reductions and needed staff expansions.

Budget Timetable
Conferences between individual principals and Supt. Kaiser are scheduled during the Feb. 25-March 5 period. Budget reports, including the principals' reports, are due in appropriate school offices by March 18.

By April 15, all administrators will have submitted their summaries. In the superintendent's data will include requests for personnel; outlay for equipment purchases, repairs and replacements; maintenance projects; and instructional supplies and textbooks.

Hearing In August
All income and expenditure estimates for the 1963-64 school year are due to be completed by May 3, with the new budget ready for preliminary action by the school board at the July 23 board meeting.

Following a month's public display, the budget is expected to be considered for final adoption following a hearing on the night of Tuesday, Aug. 27. State law requires that it must be filed in the offices of County School Supt. Wilbur R. L. Trimpe and County Clerk Miss Eulalia Holz by Sept. 14.

The registration is conducted every January, and forms are available at all local post offices. They are to be returned to the post office where obtained by Jan. 31.

Only aliens not required to register are accredited diplomats, those accredited to certain international organizations and those admitted temporarily as agricultural workers.

CHRIS LYLES, Minister

U. Of I. Trustee Urges Zoning; Not Alien To Democracy

Irving Dillard, of Collinsville, trustee of the University of Illinois, this week strongly endorsed zoning in Madison county to make possible the start of construction on the Madison county campus of Southern Illinois University.

Dillard's statement follows: "One of the chief benefits of living in a free country is the citizen's right to weigh arguments pro and con on public issues and then to accept or reject them after due deliberation."

"In the Madison county press, I have read a long criticism of the proposed Madison county zoning ordinance. The statement was signed 'Madison County Taxpayers' Association,' plus its officers, Harold H. H. Hosto, president, Emerson Bartz, attorney, and others."

"This statement said that the most important reason to oppose zoning in Madison county is because 'the ordinance and the philosophy behind it are alien to the American way of life. They are the expressions of collectivism, not democracy.' The statement also laments the erosion of American principles at the hands of those who really yearn for the police state, however they may sugar-coat their purposes."

Mighty Good Ordinance

"This is meant to say that zoning comes from Communist Russia or some other foreign dictatorship. I have had to read a lot of nonsense in my time, but this statement comes close to being the most nonsensical of all. If this is the most important argument against the zoning ordinance, then it must be a mighty good ordinance."

"There is nothing whatever alien about zoning. Nothing remotely Communistic."

"On the contrary, zoning began in the United States more than 50 years ago, when Czar Nicholas II was still on the Russian throne and any Russian revolutionaries were in Siberia."

Haphazard Growth Wasteful
"New York City established in 1913, a commission to study building heights and urban land use. New York's problem was also Chicago's and Boston's and Los Angeles's, and zoning spread rapidly over the country to combat the wasteful evils of haphazard city growth and the consequent destruction of property values."

"In 1922 — 41 years ago — Euclid, Ohio, a suburb of Cleveland, enacted a strong zoning ordinance. This ordinance was opposed by a local real estate company which carried the test case all the way to the United States Supreme Court, where it was decided in 1926."

"The decision, which upheld the zoning ordinance, can be read by all who are interested in Volume 272 of the U. S. Supreme Court Reports, Pages 365-397."

Views Of Justice

"Chief Justice Taft, previously a conservative Republican president, did not find anything 'alien' about zoning. Neither did four other Republican Justices, Sutherland and Sanford, appointed by President Harding, Holmes, appointed by President Theodore Roosevelt, and Stone,

appointed by President Coolidge."

"Conservative Justice Sutherland, who wrote the decision, said that zoning was necessary under conditions of modern life. He pointed to the 'comprehensive reports' of commissions and experts which 'bear every evidence of painstaking consideration' and 'concur in the view that segregation of residential business and industrial buildings benefits the whole community.'"

"If this suggests that zoning was a Republican plot, let it be added that Justice Brandeis, appointed by President Wilson, concurred."

County Zoning 30 Years Ago

"County zoning is no more 'alien' than city zoning. The first county zoning was adopted in Oneida county, Wisconsin, just 30 years ago. That marked the first application of zoning to rural land use."

"The Oneida county ordinance was intended to prevent farm settlement in parts of cut-over land area where scattered settlement would create unwarranted burden for schools, roads and local administration and at the same time interfere with the best use of the county as a whole, which was especially suited to forestry and recreation."

"The Oneida county ordinance provides a 30-year-old basis for the Madison county ordinance. As Oneida county protected its chief resources, so are the supporters of zoning in Madison county undertaking to protect the important interests of a great new Madison county asset — Southern Illinois University."

Safeguard Investment

"For it would be an outrageous waste of the money of taxpayers throughout the whole state if the Madison county campus site was acquired and then it was allowed to be ruined by a ring of honky-tonks and joints."

"The Southern Illinois University administration, led by Dr. Deloyte W. Morris, president, and the SIU board are 100% right in holding up construction until assured by the Madison County Board of Supervisors that the people's multi-million-dollar investment will be safeguarded by adequate zoning."

Thousands Of Areas Have Zoning

"In 1920, about 100 American communities had zoning ordinances. By 1930, there were nearly 900 zoning communities. Today, they number into the thousands, but unfortunately Madison county is not among them."

"The question before the Madison County Board of Supervisors is whether Madison county will go forward now and make the most of the great Southern Illinois University opportunity or whether Madison county will string along with our outmoded past."

"Let no one — least of all any elected supervisor — be misled by that 'alien' nonsense. Its purpose is to try to confuse the issue," Dillard concluded.

IPAC Reports Statewide Drop In Gen'l. Assistance

Stability in the aid to dependent children program and continued declines in general assistance were reported statewide for November by the Illinois Public Aid Commission in a report made this week.

The state assistance rolls dropped for the eighth successive month — this time by 2046 persons, the IPAC report shows. Recipients in November totaled 423,339, compared to 425,385 the previous month and 433,359 in November 1961. Expenditures throughout the state totaled \$3,285,981 for the month, averaging

\$51.84 a person. In October, the total was \$3,419,457 for an average of \$51.93 per person.

County Totals
In Madison county, \$98,947 was spent to aid 1947 persons in November. In Madison county, \$328,413 was spent to aid 7921 persons in November. Included were \$86,550 for 1113 persons receiving old age assistance; \$163,679 aid to 4508 dependent children; \$4815 aid for 83 blind persons; \$24,572 for 316 persons receiving disability assistance, and \$44,875 general assistance for 1915 individuals.

130 In County Apply For Passports In 1962

The Madison county circuit clerk's office handled 130 passport applications during 1962. It was reported this week by Circuit Clerk Willard V. Portell in Edwardsville.

Portell said many of the applicants were wives preparing to join their husbands in service overseas. The Quad-Cities area had the highest number of passport applications — 23. Edwardsville was second with 22.

There were 18 applications filed from Wood River and 11 from Collinsville. Alton and Hartford had eight applications each, and there were seven from Highland.

The clerk's office collects a \$9 fee on each application, except in certain instances where applicants are wives of servicemen stationed in foreign countries, which is sent with the completed forms to the U. S. Passport Agency in Chicago. Applicants receive their passports for foreign travel directly from the government agency.

Other applications in the county included five from East Alton, three each from Godfrey and Hannibal and one each from Berthlet, Cottage Hill, Glen Carbon and Livingston. Five others were from out-of-state and two from adjoining counties.

City Credit Union Re-Elects Officers

Re-election of officers for the credit union of city employees in Granite City was announced this week.

Renamed to head the Granite City Employees Federal Credit Union, which has an office in the city hall, was Police Patrolman Francis McManus.

Other officers are Frank Graf, vice-president; Donald Parente, treasurer; Floyd Bell, secretary. Named to the board were Andy Balsie, Lionell Portell, Mrs. Dorothy Partney, Ralph Geisbert and Kenneth Watts.

Appointed to the supervisory committee were Joseph Holder, Mrs. Partney and George Teller.

Local Club Will Send 100 To Judo Tourney

An estimated 100 children and adults will represent the Quad-Cities in the Central States association judo and karate tournament Jan. 26-27 at the Washington university field house, according to Robert Whelan, president of the local club.

The Granite City judo club trains at the YMCA. There are approximately 130 children and 70 adults in the club.

Madison Woman Aids Alton Hospital Workers

About 25 Alton State Hospital employees are studying the development and function of personality in a class taught by Mrs. Stark Madison, the hospital's psychiatric casework supervisor.

Most class members are new employees. They meet from 1:30 p.m. to 2:30 p.m. on Wednesday. Nurses, social workers, recreation staff members and psychiatric aides are among those attending.

Mrs. Stark said the information helps employees understand how the patients act. Employees also are taught about the dynamics of the illness. It gives them "a lot of self awareness of their own personality structure," she said.

This is the second year the three-month course has been offered at the hospital. Mrs. Stark has a master's degree in social work from George Warren Brown School of Social Work, Washington University, St. Louis.

SERVING RURAL ILLINOIS...

Farm work, 1963

"Everybody talks about the weather, but nobody does anything about it!" Not true for that prominent local businessman, the modern farmer.

Thanks to electric power, the vertical-column heated-air corn dryer shown above dries 1,500 bushels of corn a day — good weather or bad — for market or storage.

Electricity makes farm work an efficient, dependable business.

Serving rural customers has top priority with Illinois Power. Today, every farmer in Illinois Power territory who wants electricity has it — backed by Illinois Power help in planning labor-saving electric equipment.

We serve more than 100,000 customers in rural areas — more than twice the number who are served by taxpayer-subsidized rural electric cooperatives in the same areas.

KIWANIS SUPPORT
 was given Monday to a drive to
 raise funds for a new mat of judo
 mat will be used for judo, karate,
 wrestling and tumbling. Robert Whelan (left), president of the
 Granite City Judo club, accepts a check for \$50 here from
 Gene Frey, president of the GC Kiwanis club.

Kiwanis Club Supports
Drive For YMCA Mat
 The drive to raise funds for a
 tournament-size mat for judo,
 karate, wrestling and tumbling
 for the YMCA, was bolstered
 Monday evening by a \$50 dona-
 tion from the Granite City Kiwanis
 club.
 Robert Whelan, president of the
 Granite City Judo club and
 vice-president of the Central
 States Judo association, was one
 of the guest speakers. He told
 about the YMCA program that
 will make use of the mat.
 According to Whelan, there

are 130 children and 70 adults
 in the judo and karate program,
 70 children in wrestling and 30
 in tumbling. Though the YMCA
 is equipped with a judo (practice
 area for judo), the area is
 not of sufficient size for tourna-
 ments.
 In the past, a borrowed mat
 has been used for tournaments.
 If the program is to continue at
 its current rate, however, a regu-
 lar tournament-size mat will
 be necessary.
 Twenty members attended the
 program which was held at the
 Elks Club rathskeller.
 The second speaker on the
 program was Omer Culer, a
 Turkish student now in his sen-
 ior year at Southwestern Illinois
 University. He spoke about his
 impressions of the United
 States.
 Culer also showed a variety
 of hand-carved meerschaum
 pipes and jewelry. He comes
 from a Turkish town which is
 the only place in the world
 where meerschaum is found. The
 art of carving meerschaum
 is handed down from father to son.
 Culer, who resides at the YMCA
 guest meerschaum to supple-
 ment his income and help pay
 his way through college.

MOTOR TREND 1963
CAR OF THE YEAR
RAMBLER

"A good safety device. Self-adjusting brakes and dual master cylinders... If one system fails, the other brings the car to a safe stop."
"Trunk is large. Low loading lip makes it simple to load."
"Our Classic... with the rugged, oh-in-line Six... gave a high of 26.7 mpg highway cruising... mixed city and freeway gave 23.4."
"A sportier, more performance-oriented vehicle, the Ambassador V-8 should satisfy the wants of the Rambler buyer who favors performance."
"There isn't any pitch or chopiness noticeable even on rough roads."
"Summing up... it looks like the new Rambler will be an even better buy than it has been in previous years."
Why don't you look at the 1963 Rambler? Best-selling Rambler ever built!

Here are some of the experts' reasons:
"New styling is based on lean, clean lines that are apparent from almost any angle."
"Motor Trend's Cars of the Year prove their mettle in actual testing, confirm their engineering excellence, reliability, sturdiness and performance."
"Quality has always been one of American Motors' largest selling points."
"In unified bodies, which American Motors pioneered, this latest design represents a real advancement... biggest single reason we chose Rambler Car of the Year."
"This new construction method results in a unit so strong it'll take punishment longer and naturally hold its resale value."
"The interiors of both the Classic and Ambassador are roomy and comfortable... offer plenty of legroom."

Sheriffs, State Police Meet To Discuss Policies, Work

A get-aquainted meeting for sheriffs and their chief deputies of 10 counties and state police officials was held Monday evening at the District 11 French Village headquarters with Capt. Emil Toffant as host.

Representing Madison county were Sheriff Barney Fraundorf and Chief Deputy George Ramach, and other sheriffs in attendance were from St. Clair, Bond, Calhoun, Clinton, Greene, Jersey, Macoupin, Monroe and Montgomery counties.

"We discussed policies in regard to gambling, prostitution, auto thefts, handling of juveniles and traffic safety," Capt. Toffant said.

State Investigating Procedure. The state policy is to survey areas once a month and if violations of state laws are found, local—either city or county—authorities are notified from Springfield, Toffant explained.

The violations are rechecked a second month, and second and third notices are sent out before the state moves into action. However, in District 11, Toffant said, he personally contacts either city police chiefs or sheriffs to advise them of violations. State police officials in attendance included Joseph Ragen, director of Public Safety; James McMahon, assistant director; Chief William H. Morris; Joseph Nicol, superintendent of

the state bureau of identification and investigation and the state crime lab; John Newbold, who is in charge of the state detective squad.

District Officers Also introduced were Trooper Robert Boruffa, who is in charge of the district juvenile section; Sgt. Frank Willmont, who heads the district auto theft squad, and Sgt. Harold Schwertfeger, who heads the district traffic safety program.

The sheriffs were advised police dogs will soon be available at the district office, and the state also has aircraft available for searches.

McLean is currently serving a 30-day sentence in the county jail for theft. He was convicted here for putting slugs in a coin changer at a Granite City laundromat.

The other two are free on bonds of \$5000 each.

8 Quad-Cities To Be Drafted Next Monday

Eight Quad-Cities are to report next Monday to the county selective service office at Edwardsville—1304 Hillsboro avenue—for armed forces induction.

In addition, six local youths are to report for pre-induction physical examinations on Jan. 31.

The draft office was notified this week that no Quad-Cities will be called for induction in February. However, eight local youths are to report Feb. 27 for pre-draft physicals.

Judge without prejudice was each youth's petition for a writ of habeas corpus. The judge pointed out the two prisoners still have time to apply for a review by the U. S. Supreme Court.

Accident On Niedringhaus An accident occurred about 5:10 p.m. Monday on Niedringhaus avenue at 20th street. Police said it involved William C. Phillips, 30, of 2733 Birch avenue, who was pulling away from the curb and an auto driven by Anna M. Bittick, 35, of 4437 Highway 162.

C. Of C. To Offer Three Courses To Quad-Cityans

The Tri-Cities Chamber of Commerce again this spring will offer three courses to Quad-Cityans. It was announced this week by Harold F. Karandjoff, chairman of the citizenship committee.

The "Action Course in Practical Politics" along with "Freedom vs. Communism—The Economics of Survival" and an "Economic Discussion Course" will be presented with starting dates to be announced later.

All of the courses are in the national C. of C. program, and advance notice of interest is sought by the local C. of C. office. An expression of interest is not an obligation, Karandjoff said.

The practical politics course lasts nine weeks and has been widely accepted in the Quad-Cities with avid participation. It is a non-partisan course in the ABC's of politics and the course, books and materials cost \$7.50.

The Freedom vs. Communism course also has had considerable participation locally. It is an eight-week course comparing the American private competitive enterprise system with the system of Communist Russia. The course, books and materials cost \$5.

The longest course—18 weeks—for economic discussion will be a series of seminars on the economics of the American business system under a qualified discussion leader. Books and materials are to cost about \$10.

Meyer pointed to several issues which would affect the value of Quad-Cityans' dollars. "These include," he said, "tax reform, a tax cut, school subsidies, establishment of a department of urban affairs and housing, compulsory health care for the elderly under the Social Security system and federal control of unemployment compensation."

Laser Light Ray Has Fantastic Potential

D. R. Hargis, of Southwestern Bell Telephone Co., gave an illustrated talk on "Mystery and Mastery of Light" at the Tuesday noon luncheon meeting of the Granite City Rotary Club, held at the YMCA.

He demonstrated the laser light, one of the latest and most astounding of recent scientific achievements. These controlled concentrated light waves, sometimes described as a "death ray," have the ability to carry, within a three-quarter inch beam, all the telephone, radio and television transmissions now handled in this country by a vast amount of equipment.

The laser light, which spreads less than six inches in 100 miles, has been reflected from the surface of the moon, and already has been used in surgery, Hargis said.

He also explained the operation and characteristics of Tellurium, which is used for transatlantic communication, and exhibited a small model of the space device, Both Tellurium and the laser ray were developed by private enterprise, Hargis pointed out.

Four Weeks Remain To Get '63 Licenses

Illinois motorists are applying for their motor vehicle license plates at a considerably faster pace than last year, Secretary of State Charles F. Carpenter said today, reminding them that only four weeks now remain before the Feb. 15 deadline for having the plates displayed on the vehicles.

Registrations totaled about 81,800,000 at the start of business this week, more than 250,000 greater than at the same time a year ago, he said.

Only two weeks now remain for motorists planning to apply for their licenses by mail to forward them in order to be sure of having their plates for the deadline, Secretary Carpenter pointed out. Feb. 15 is not a deadline for submitting applications, but is the date on which the plates must be displayed on the vehicles, he emphasized.
